

Rosenberg Fans Canada to exhibit at CMPX-2018

MISSISSAUGA, Ontario - March 7, 2018 - [PRLog](#) -- Rosenberg Fans Canada Ltd, the Canadian subsidiary of the German-based company Rosenberg Group, has announced they will be at CMPX-2018. The show is taking place at the Metro Toronto Convention Centre on March 21st through the 23rd and will be the largest HVAC/R industry event held in Canada. CMPX brings together Plumbing, HVACR, mechanical contractors, installers, technicians, wholesalers, engineers, architects, building managers, renovators, specifiers, government buyers, manufacturer's reps, and retailers from across Canada and around the world.

Rosenberg Canada will be in Exhibit Hall C at booths # 2112 and #2114. The company offers a wide range of high-quality industrial fans, blowers, and motors including Axial fans, Centrifugal blowers, Plug fans, Plenum fans, Single and Double Inlet fans, with both AC and EC motors.

"When you're serious about improving your business in Canada, you just can't afford to miss this event. No show in this country compares with CMPX. Over 500 exhibitors will be representing new products, innovations, applications, and information that really define today's HVAC industry," says Alex Loginov, Rosenberg Canada's VP. "As the leading industrial fan manufacturer, we look forward to every opportunity to showcase our innovative products," he added. "This year, along with our fan and motor lines, we are proud to show the ECFanGrid, our energy efficient fan array system for retrofit and new air handling applications. It is equipped with our exclusive, easy-to-control, EC Motor technology and it's Rosenberg's way to improve reliability, flexibility, and simplicity in both existing and new ventilation systems," concluded Mr. Loginov.

Contact Rosenberg Canada at info@rosenbergcanada.com for more on their products and services, or visit them at <http://rosenbergcanada.com>.

For more information on the ECFanGrid go to <http://ecfangrid.ca>.

There you can find "How to" videos along with, technical documents and recent installations highlighted.
