

Rosenberg Fans Canada Ltd unveils its brand new and easy-to-navigate website featuring its new product

Rosenberg Fans Canada Ltd strives to deliver excellent customer service and is enhancing the experience with the launch of the new ECFanGrid.ca website.

Mississauga, ON, Canada: Mar. 1, 2017 — Rosenberg Fans Canada Ltd, the Canadian subsidiary of the German based parent company Rosenberg Group, today announced the launch of a new website ECFanGrid.ca, showcasing the

ECFanGrid — a cost effective, modular solution for new and retrofit applications . The new website is easy to navigate and highlights the features and benefits of the ECFanGrid.

“Our strategy is to use several smaller, highly efficient Electronically Commutated fans, instead of one larger, inefficient fan. With the launch of our new website we will provide a one stop resource to help our customers make the best use of ECFanGrids in their new and retrofit projects.” commented Alex Loginov, Rosenberg Fans Canada Ltd.'s VP during the launch.

The new site highlights government grants and local incentive programs that can provide resources for retrofit or energy saving projects. The programs are available throughout Canada. It does not stop there; the website’s interactive map

conveniently shows which programs are available by province and provides links to those programs.

ECFanGrid.ca features training videos and product catalogues full of specifications and details, as well as links to technical publications, like white papers, in the download section.

###

Rosenberg Fans Canada Ltd. has been serving Canadian customers from its headquarters in Mississauga, Ontario since 2005.
